

Challenge

- •Asthma is a life-long chronic inflammatory disease of the airways that affects people of all ages, race and gender.
- •In Europe, almost 30 million people live with asthma which is also the most common chronic disease in childhood.
- •Despite its increasing prevalence, 1 in 2 asthma patients do not have their asthma well controlled.

Traditional Asthma Treatment

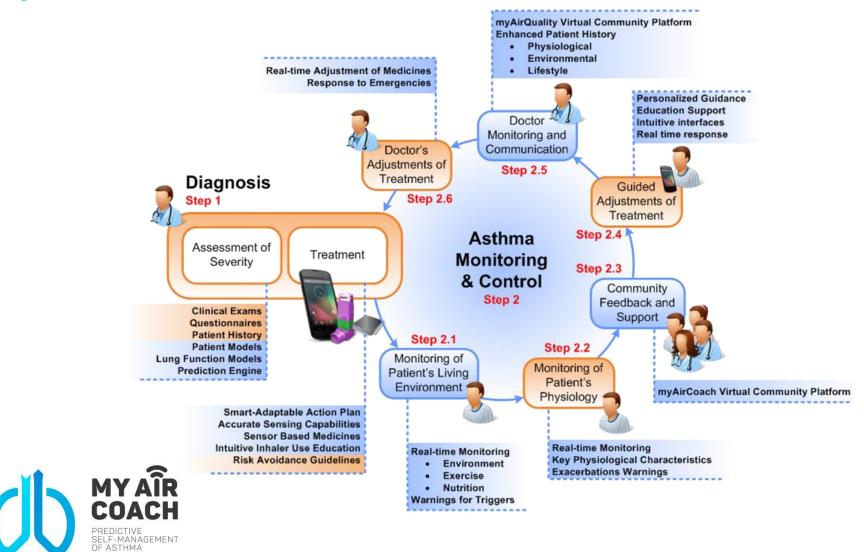

MyAirCoach Vision

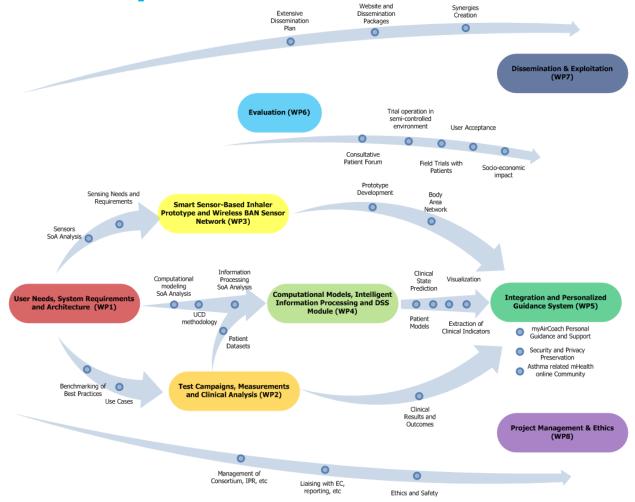

- Patient empowerment for self-management of asthma
- •Innovative mHealth approaches and modern sensing capabilities
- Personalized patient modelling and treatment optimization
- •Online communication platform for patients, their families, doctors and researchers

MyAirCoach Asthma Treatment

MyAirCoach Workplan

Project Details

Start date:

01-01-2015

Duration:

36 months

Funding Instrument:

Horizon H2020:

The EU Framework Programme for Research and Innovation

Centre for Research & Technology Hellas/Information Technologies Institute

http://www.iti.gr

Imperial College of Science, Technology and Medicine

http://www3.imperial.ac.uk/

IHP GMBH - Innovations for High Performance Microelectronics / Leibniz-Institut Fuer Innovative Mikroelektronik
